 sunbrella®

indoor  
& outdoor  
FURNITURE

2012 - 2014

Developed more than 50 years ago for the boating industry, Sunbrella® fabrics have now become the global benchmark for indoor-outdoor fabrics.

Drawing inspiration from the latest trends in high-end decorating, luxury and comfort, Sunbrella® fabrics are designed by the Dickson Group's style team. The 2012-2014 Indoor-Outdoor collection offers 145 references including 55 totally new ones. A rich array of 55 solids, 20 stripes, 6 jacquards and 19 braided patterns (Natté), this new palette of textured materials with cutting-edge technical features enables decorators to totally unleash their creativity.

# EX HIBI TION

*4 works of art...* For the duration of a single collection, upholstery fabric becomes truly original art, created by Sunbrella® and distributed by Dickson.

*4 different worlds...* Mixing and matching, combining and coordinating patterns, styles and textures to create genuine colour universes, each with their own ambience: original, explosive, graphic... invite endless possibilities!

# YELLOW CODE

## A LUMINOUS, FUTURISTIC WORLD

Decidedly trendy, yellow sets the tone, spicing up rooms with its inherently dazzling, vivaciously monochromatic splashes. Adding energy and excitement to any decor, be it neon, gold or mustard, yellow illuminates the classic beige, black or charcoal grey.

	Solid Sunflower 5457		Sooty Natté 10030
	Solid Gold 3759		Dark Taupe Natté 10059
	Solid Black 5408		Taupe Black Linen 3920
	Smokey Yellow Natté 10066		Urban Flannel Stripe 3918

100% acrylic Sunbrella®  
Weight: 270 to 550g / m<sup>2</sup>  
5 year warranty  
Available in 137 cm width

# PINK CONTRAST

## A CHIC, CINEMA-LIKE WORLD

You've got a hot date with special effects, from stripes to geometric designs, make way for sleek, stylish black & pink. Patterns mingle with solids to create optical illusions that combine the wonders of a bold character and suave voluptuousness.

100% acrylic Sunbrella®  
Weight: 270 to 550g / m<sup>2</sup>  
5 year warranty  
Available in 137 cm width

# ULTRA PURPLE

## A MODERN WORLD FILLED WITH DEPTH AND INTENSITY

Violet, plum, eggplant, lilac... the many shades of purple flood the decorator's palette, indoors and out. A multi-faceted colour, purple can be retro when it takes on a hound's-tooth pattern, dynamic when it comes in stripes, and electrifying in the pureness of a solid.

Weight: 270 to 550g / m<sup>2</sup>  
5 year warranty  
Available in 137 cm width

# GRAPHIC GREEN

## A VIVID, RETRO WORLD

The trendy pairing of patterns full of character, like hound's-tooth and jacquard, as well as the fascinating array of greens generates unlimited potential: futuristic, back to nature, lime, lush, khaki, sophisticated or signature greens... welcome to green, where everything goes!

## TECHNICAL PERFORMANCES AND GREAT STYLE: THE PERFECT BALANCE

The constant search for new materials and cutting-edge technical performance has earned a reliable reputation for Sunbrella® fabrics, of which the unique composition has proven decisive.

Sunbrella® fabrics are exclusively woven with Sunbrella® solution-dyed acrylic fibres. Developed by the R&D team at Dickson, this new generation acrylic fibre is solution-dyed, which means the colour pigments are incorporated as the fibres are being manufactured, not afterwards like most other yarns and fabrics. This is why the colours hold up over time and resist fading even after hours of exposure to the sun, moon and weather.

The **CleanGard®** treatment, made with fluoride nano molecules, enables these fabrics to withstand salt water, chlorine, and all kinds of inclement weather conditions. This powerful protection boosts the fabrics water repellency and gives the fabric incomparable stain resistance.

Certified **Oeko-Tex**, (environmentally-friendly label awarded by an Austrian research institute), Sunbrella® fabrics are manufactured without any hazardous substances and do not present any health, skin or environmental risks. Recommended by the **Skin Cancer Foundation**, they ensure maximum UV protection (UPF 50+ = 100% UV rays blocked).

## DICKSON-CONSTANT, THE PURE EXCELLENCE OF FRENCH STYLE UP MARKET FABRICS

---

Dickson-Constant's technical expertise is the fruit of the 1969 merger between Dickson, located in Dunkirk since 1836, and Constant set up in Lille since 1913.

In 1998, Dickson-Constant joined the American group, Glen Raven. The strategic alliance between these two outdoor technical textile leaders enabled the Sunbrella® brand to establish a name for itself both as the world's #1 marine fabric and the global benchmark in terms of quality indoor-outdoor fabric.

More than 25 million square metres of fabric are manufactured each year by the 110 looms. From the design to the weaving, treatment and logistics... the entire production process is handled in-house, over 27,500 square metres of floor space.

*Launched more than 50 years ago, the Sunbrella® brand is now widely appreciated and recognized by professionals all across the planet for its exceptional quality, durability and broad range of colours and designs.*
